PROFILE

Web developer focused on frontend, currently building production applications with React.js and TypeScript at I-MAS, where I joined as an intern and moved onto a permanent contract. Comfortable across the stack with Node.js and TypeScript, and used to working in SCRUM teams on real client projects.

EXPERIENCE

Web Developer

I-MAS • Sep 2025 – Present (permanent contract since Jun 2026)

- Frontend development with React.js and TypeScript on live client projects.
- Global state management with Zustand; backend development with Node.js and TypeScript.
- Design and development of responsive web applications.
- Deployment and configuration of a WordPress landing page on a client domain.
- Use of generative AI to streamline task management and workflows, applying my own judgement and validating the results.
- SCRUM and Agile: sprints, dailies, code reviews and retrospectives.
